50X1-HUM

1. Effective 1 January 1951, the Soviet Zone railroad tank car distribution point in Berlin took over the trusteeship for all foreign-owned railroad tank cars. Tank cars owned by German firms in the western zones of Germany were also included in this category.
2. Plants under contract to repair and maintain these tank cars are Kuehltransit in Leipzig; Lowa in Berlin-Miederschoenhausen; railroad cars factories in Zoerbig, Stassfurt, and Quedlinburg; repair installations in Niedersachswerfen and Magdeburg; and the home station of railroad tank cars in Woffleben. \*\*
3. The tank cars under the trusteeship of the tank car distribution point must not be used for intrazonal traffic and transit operations through the western zones of Germany. In exceptional cases, a special permit may be obtained for such operations.
